

All your members have a young person in their life...

...your next guest speaker works with these young people every day.

Hear their stories – and ours...

Our unique programs at Evolve help troubled and at-risk youth make remarkable journeys that help prevent negative mental health, criminal activity, early school-leaving, unemployment and homelessness. But don't take our word for it... **hear it first hand** from our *Young Men's Program* participant, Tim:

"Evolve helped me with my life. It was hard for me but also fun. My biggest problem was that I had anger issues, but I was also hurt inside. My teacher told me about Typo Station and what it could do for me. **If it wasn't for Evolve I would probably be in juvie by now and wasting my life.**"

Evolve provides a supportive environment for at-risk youth like Tim to make changes today for a positive tomorrow. Evolve and our passionate speakers would be delighted to share how we help young men like Tim write a happy ending with your members at your next meeting.

Our Presentations

Evolve's presentations resonate with individuals and families who have experienced challenges with their children, grandchildren, nieces or nephews, or know of families with troubled youth. We feel this is why our presentations are incredibly well received and engage members on many levels. You can find out a little more about what we do on www.evolve.org.au or contact our staff for more information.

To have one of our staff visit your club, or to arrange a donation:

Contact: Jayde Greenall, Marketing Coordinator
07 5543 6899 or
jayde@evolve.org.au

We appreciate cooperation between clubs in regional areas to enable us to reach to a number of clubs at the one time - less money in travel is more money for our young people!
